BUILDING DEPARTMENT

FLORIDA BUILDING CODE 2319.17.2.4

2319.17.2.4.1 All trusses shall be erected in accordance with the Truss Plate Institute Manual Commentary and Recommendations for Handling & Bracing Metal Plate Connected Wood Trusses (HIB-91) in addition to any requirements indicated on the approved permit document.

2319.17.2..2 For trusses having an overall length of the bottom chord in excess of Thirty Five Feet (35'") or Six Feet (6') overall height, erection shall be supervised by either a Registered Engineer, Professional Engineer, or Registered Architect retained by the contractor. A retained letter from the Registered Engineer, Professional Engineer, or Registered Architect shall be submitted along with the shop drawings as part of the permit documents.

The Margate Building Department requires that you deliver a certificate of supervision to the Building department immediately upon completion of the installation of the trusses and temporary bracing.
